FROM

Guduru Kiran Sai
Software Developer

As a motivated and dedicated professional, my journey into Full Stack Web Development has been driven by a genuine passion for creating engaging and user-friendly web experiences. My training has equipped me with a solid foundation in modern web technologies, including HTML5, CSS3, JavaScript, Bootstrap and responsive design. I am well-versed in popular libraries and frameworks such as Express, Node.js, React, Redux and databases like MongoDB, MySQL which allow me to craft dynamic and interactive web applications. and have worked on multiple projects which have given a practical experience in writing clean and bug free code for responsive web applications. One of the project is Podcast Web app which allows the user to listen to the podcast and Create, Edit, Delete, Update his podcasts and a project on Document Talk AI-Chat Assistant using Google PaLM LLM using LangChain framework.

What sets me apart as a candidate is my unique blend of skills and experiences. My background in Design Engineering has made my problem-solving abilities, attention to detail, and the ability to think creatively. These attributes, combined with my technical proficiency, make me a versatile candidate capable of tackling various challenges in the field of web development.

Thank you for considering my application. I look forward to the possibility of joining your team and contributing to your mission of delivering exceptional web experiences.

Your's Sincerely,

Guduru Kiran Sai
